STANDARD OPERATING PROCEDURE (SOP)

Process Title:	Identifying and Eliminating Mosquito Breeding Places to Prevent Dengue, Chikungunya, and Other Mosquito Borne Diseases		
Department:	Facilities Management		
SOP ID:	LIS/OPS-FMG/SOP/001		
Effective Date:	2025/06/10	Revision Number:	V00

Purpose & Scope

To establish a clear and consistent protocol for identifying, managing, and eliminating mosquito breeding sites within school premises. This SOP aims to minimize the risk of mosquito-borne illnesses such as Dengue, Chikungunya, and others, thereby ensuring a safe and healthy environment for all students, staff, and visitors.

Responsibilities

Appointed Staff Member - Facility (Daily Inspector)

i. Conduct daily inspections of the school premises after 2:00 p.m.
ii. Identify and eliminate mosquito breeding sites (e.g., stagnant water, open containers, blocked drains).
iii. Maintain and complete the Daily Mosquito Eradication Checklist (Annex 01).
iv. Educate students and staff on mosquito prevention practices.
v. Ensure preventive measures are consistently followed.

Branch General Coordinator / Operations Coordinator

i. Oversee and monitor the implementation of mosquito control procedures.
ii. Maintain detailed records of daily inspections and corrective actions taken.
iii. Provide regular updates to the Head of School and Network Leadership Team.
iv. Ensure the entire school compound is free of mosquito breeding places.
v. Coordinate with local Public Health Inspectors (PHIs) for fumigation and inspections.
vi. Supervise security staff to ensure they behave professionally with visiting health officials.
vii. Facilitate smooth visits by government officers, ensuring transparency and cooperation.

Head of Branch

i. Provide overall leadership and supervision for mosquito control efforts.
ii. Ensure that assigned responsibilities are executed efficiently by the staff.
iii. Support coordinators and inspectors in maintaining a mosquito-free environment.
iv. Liaise with regional or network leadership to escalate issues if required.

Security Staff

i. Support the daily inspection team by reporting potential breeding areas.
ii. Maintain professional conduct when interacting with health inspectors or other officials.
iii. Ensure gates and premises are accessible during inspections and fumigation activities.

Procedure

1. Daily Inspection & Breeding Site Elimination

i. Appoint a Responsible Staff Member: Designate a trained staff member for daily mosquito breeding site inspections.
ii. Timing: Conduct inspections daily, preferably after 2:00 p.m., when school activities reduce and premises are calmer.
iii. Inspection Areas: Check all common areas, including classrooms, playgrounds, restrooms, staff rooms, garden areas, drains, water tanks, and shaded corners.
iv. Identify & Eliminate Breeding Sites:

    a. Remove stagnant water in containers, pots, buckets, trays under plants, or unused items.
    b. Unblock and clean drains and gutters.
    c. Properly seal and store water containers.
    d. Clear and dispose of garbage regularly.

v. Preventive Measures:

    a. Educate staff and students about preventing mosquito breeding.
    b. Ensure proper waste disposal and avoid water stagnation.

vi. Checklist Maintenance:

    a. Complete the Daily Mosquito Eradication Checklist (Annex 01).
    b. Have it signed by the responsible staff and supervisor.
    c. Keep the checklist accessible for review by management or health inspectors.

2. Supervision and Monitoring

i. Branch General Coordinators / Operations Coordinators must:

    a. Monitor daily inspection work and verify checklist completion.
    b. Ensure all identified breeding areas are addressed promptly.

Document Ref: YB2JR-OFA5N-L7YNS-9BFBP

c. Provide weekly reports to the Head of School and/or Network Leadership Team.
d. Guide the staff on best practices and compliance with health regulations.
e. Coordinate with government officers for fumigation and inspections.
f. Maintain professionalism in all official interactions.

3. Fumigation Procedure

Fumigation should be carried out at least twice a year, or more frequently based on need.

Steps to Follow:

i. Request Initiation:
   a. Visit the local Medical Officer of Health (MOH) office and submit a formal request to the Public Health Inspector (PHI) for fumigation.
ii. Inspection & Scheduling:
   a. PHI will inspect and confirm a date for fumigation.
iii. Payment:
   a. Ensure payment is made either at the MOH office or to the officers directly (as instructed).
iv. Premises Preparation:
   a. Clean and prepare both indoor and outdoor areas for fumigation.
v. Execution:
   a. Ensure all school spaces (classrooms, labs, offices, etc.) are fumigated.
vi. Documentation:
   a. Take photos of the fumigation process.
   b. Share updates with parents via official communication channels.
vii. Closure:
   a. Fumigation must take place on a non-school day when students and staff are not present.
   b. Ensure PHIs are supported throughout the process.
   c. Maintain records for future audits or inquiries.

Process Compliance & Approval

Compliance Monitoring

i. All designated staff members must strictly adhere to the outlined procedures and complete the Daily Mosquito Eradication Checklist (Annex 01) without fail.
ii. Branch General Coordinators/Operations Coordinators are responsible for overseeing the proper execution and documentation of these procedures.

Record Keeping

i. Daily checklists must be signed, dated, and stored systematically for internal audits and external inspections.
ii. Fumigation schedules, inspection logs, and communication with PHI officers must be properly recorded and retained.

Page 3 of 5

Internal Audits

i. Random spot checks will be conducted by the network coordination and leadership team or by internal audit department to verify compliance.
ii. Non-compliance or negligence may result in formal warnings or disciplinary action.

Approval Process

i. Any deviations from the standard procedure must receive prior written approval from the Head of School and be reported to the Network Coordination and Leadership Team.
ii. Approval for additional fumigation cycles or urgent interventions should be coordinated in consultation with the MOH Office and approved by the Head of Branch.

Reporting Structure

i. Weekly compliance updates must be submitted by the General Coordinator to the Head of School and the Network Operations Lead.
